

Investment Guide

A concise overview for tourism investors evaluating opportunities across Indonesia. This document is a prototype placeholder for microsite downloads.

Why Indonesia

Large domestic market, globally recognized destinations, expanding infrastructure, and government-backed tourism development priorities.

Investor Pathway

Explore priority destinations, review sector opportunities, assess licensing steps, contact investment relations, then proceed through OSS/NIB.

Priority Opportunity Areas

- Hospitality and resort development in priority tourism destinations.
- Eco-tourism, wellness, marine tourism, and cultural experience assets.
- Integrated area development within tourism-oriented Special Economic Zones.
- Supporting infrastructure: MICE, transport nodes, visitor services, and digital tourism platforms.

Prototype Data Notice

Figures and projections in this prototype are realistic dummy values for interaction design only. Replace with approved data from BPS, Kemenparekraf/Kemenpar, BKPM, OSS, and destination authorities before public launch.

Investment Guide

Opportunity snapshot and decision workflow.

Investor Decision Workflow

1. Discover

Use the interactive map to compare DSP and tourism SEZ locations.

2. Evaluate

Review demand drivers, land availability, indicative capex, and ROI ranges.

3. Validate

Download destination memorandum and check data sources.

4. Connect

Contact Investment Relations for pre-feasibility questions.

5. Formalize

Proceed to OSS/NIB and relevant licensing steps.
